Learning

This term some of the children have shown an interest in sea creatures and we have been following their interest with this. The children have been learning about different sea creatures and we will continue to develop their learning by linking it to the local area that we live in and learning about Scottish sea creatures and shells. This term we will be focusing on identifying and hearing rhyme in words. We will be doing this by singing lots of different nursery rhymes, reading rhyming books and playing lots of games about focusing on rhyme.

Happy New Year and welcome back to nursery. We hope that everyone had a relaxing holiday and it has been lovely having all of the children back.

Sponsored Walk

The children will be taking part in a Sponsored Walk on Monday 31st March. A sponsorship form is attached to the Newsletter.

Helping in Nursery

We are always looking to welcome family members into nursery. If anyone would like to take time to read a book, play games, bake, share their hobby with the children we would love it for you to come in. If you are interested then please let a member of staff know.

Eco Group

We have 4 new members of our Eco Committee; Emily, Lauchlan, Noah and Tilly. They have been learning about how we recycle in nursery and they will be organising the resources for the nursery to start potato chiltting and for the Big Garden Birdwatch happening 24th-26th January.

We have a Stay and Play organised for all parents on Monday 27th January 8.50-9.50 and the Eco Committee with staff will be organising for our families to take part in.
